Green MALMÖ Experiences

Green Tours

- **The Sustainable Malmö of the Future by Bike**

3 hours

Explore green architecture, energy-efficient buildings, and urban sustainability while cycling through Malmö's former shipping area and oldest quarters. Learn about Malmö's commitment to reduce 70 percent of its carbon emissions by 2030.

- **The Sustainable Malmö of the Future Walking Tour**

2,5 hours

Immerse yourself in Malmö's sustainable transformation on foot. Wander through the city's former shipping area and oldest quarters, discovering green roofs, solar installations, and other eco-friendly initiatives.

Green Site Visits

- **Food Waste to Lunch Restaurant**
1,5 hours

Get introduced to food sustainability and enjoy a delicious lunch made from rescued groceries. Meet the restaurant's founders and delve into the importance of reducing food waste in Sweden.

- **Immigrant Women's Work Community**
1,5 hours

Experience social sustainability firsthand with a visit to a vibrant community where immigrant women run successful small businesses. Learn about positive integration efforts in Sweden.

- **Guided Visit to Eco-city Augustenborg**
1,5 hours

Discover one of Sweden's pioneering urban sustainability projects. Learn how innovative stormwater systems, energy-efficient housing, waste recycling, and community farming—backed by local partnerships and government support—have transformed it into a model for holistic sustainability.

Green Tours

- **The Sustainable Berlin of the Future**
 **3 hours**

Discover how Berlin is working toward the Paris Agreement through bold climate actions by the govt, businesses, and citizens. Ride through green parks, explore bike-friendly streets, energy-efficient architecture, and learn how the city is becoming more livable.

- **The Sustainable Tour of Berlin**

 **2 hours**

Explore Berlin's green transformation on a walking tour through Gleisdreieck Park, the LED catwalk, Viktoriapark, and more. Discover urban planning innovations, energy-efficient architecture, and the city's thriving bike culture.

- **The Sustainable City and You**

 **3 hours**

This tour explores Berlin's journey to CO₂-neutrality by linking major emission sources with personal and city-wide climate action. Discover urban gardens, eco-shops, bike culture, and projects like Holzmarkt, ending at the iconic Tempelhofer Feld. A perfect experience for sustainability enthusiasts.

Green BERLIN Experiences

- **Sustainability Walk through Neukölln**

 **2 hours**

Explore Berlin's historic neighborhoods and transformed industrial areas where citizen-led initiatives bring social sustainability to life. See how local politics shape urban development and discover hidden storefronts, bold community projects, and Berlin's most colorful staircase.

Green Site Visit

Visit to an Urban Garden

1 hour Discover a unique urban garden rooted in community and regenerative farming. Learn about global food systems, composting, biodiversity, and more.

**Can be combined with Neukölln Walking Tour*

Green Workshops

- **Seedball Workshop**

1 hour Understand the role of pollinators in our food system and make seed balls filled with wildflower seeds—ideal for greening urban spaces and supporting wild bees and insects.

- **Upcycling Workshop**

1 hour Explore resource use and waste habits through hands-on upcycling, where participants turn everyday waste like milk cartons into practical items such as wallets.

- **Herb Butter Workshop**

1 hour Participants take a guided harvest tour through the garden, collecting fresh herbs and edible flowers. They then create a vibrant and flavorful herb butter.
